From School Library Journal

Grade 5-9—Tamora Pierce's magic series continues with the third book of the series (Scholastic, 1998) focused on one of the young super-talented magicians, Daja, the only surviving member of a band of sea-going traders lost in a shipwreck. Each of the four has a specific talent, but unplumbed depths of hidden abilities continue to emerge as the foursome explores the unusual ties that have linked them mentally, emotionally, and magically. Their four mentors are here too, with assorted dukes, ladies, academic mages (lacking the "wild" talent of these young people), and many other characters. This full cast production performs a great service for listeners by using a different voice for each character and audio effects to highlight the mind-talking. Music cues at the beginning of each tape are helpful, but there are no chapter listings to coordinate following along with the book. The readers give lively and engaging performances, and the part of the narrator is read by the author, who adds depth to the telling and provides a nice touch for fans. Pierce's pace and emphasis are deliberate, helping to keep the complex interrelationships of mages and their magic in the listeners' minds. Familiarity with the previous two books is not necessary to understand this title. A popular addition to libraries with fans of the previous books in the series as well as for those new to this fantasy series. —Jane P. Fenn, Corning-Painted Post West High School, NY

The Circle of Magic Continues: Daja's Book (#3)

By Murph01

The four friends, possessors of wild magic, continue the process of learning how to use and control their magics; their teachers/mentors, continue their own quest: to understand the power (particularly the combined power) of these youngsters. In this novel, they are all traveling with Sandry's uncle, the Prince, as he surveys the problems of his lands. In particular, the kingdom they are visiting is suffering from a severe drought and is plagued with raging fires. The resident mage, university trained in traditional methods of magic, is fiercely possessive of his power to control fires, but is showing signs of stress and fatigue. When he dies during a sudden outbreak of high crown fires, all the mages, both mentors and mentees, must collaborate to save people's lives; in particular, Tris--who has been banished from any contact with her people, the Traders--must find new power and control when a fire threatens the Traders' caravan as it is departing.

Although this book focuses most heavily on Daja, she shares the stage with Briar, Tris, and Sandry, and we the readers continue to learn more about these great characters. I love the diversity of Pierce's characters: a mix of male and female heroes, coming from an astonishing range of economic and ethnic backgrounds. She does not brush aside the real problems that their differences can create, but she does show how experience and relationships can lead to new, stronger ties.

A worthy number 3 for this series: don't miss it!

book 3

By Loren Weaver

Daja's Book is the third in the Circle of Magic series by Tamora Pierce following four young mages on their learning adventures.

Off to the north with the Duke, the four are spreading their wings on a new adventure. Daja's outcast status and an interesting bit of magical accident leave her with a living metal plant and a Trader who wants to buy. Of course, she can't talk to Daja, so the fun begins.

Standing up for their foster-sister, Tris, Briar, and Sandry shame the Traders into doing business with Daja and she feels almost at home again. Of course, it can't last, and the dried-up, fireless forest soon turns against them. The four learn what it means to risk everything, even their own lives, to save others from certain death. And Daja gets a new magic out of it, too.

This is a fantastic series... I've read it more than once.

By Amazon Customer

Even though these books are meant for young adults, I would recommend them to adult fans of fantasy and adventure as well. While properly classified as fantasy, they have a novel-like feel to them, and the fact that they are in series is also a plus to me - I'm one of those folks that always wonders what happens to the other characters when the novel ends! The characters are very well developed and consistent across all of the books, and while the endings are always more or less happy, there is a lot of sadness and emotion along the way. The main characters come from diverse backgrounds, and have all had some serious obstacles to overcome - racism and class perception issues among them. Very well done!
