real deal

By T.Perraut

This was a gift, and is exactly what the recipient wanted. i.e. seems to be the real/licensed deal.

Not much is written in Japanese (names of the songs...), as music is a language on its own. So don;t worry if you do not know Japanese, as long as you can play the piano. You will recognize the songs.

Excellent collection for any Pianist that loves a Challenge.

By Andrew R. Chia

Excellent piano version that is catered to the more advanced musicians. Be warned majority of the songs can be played by moderate students but there are a few of them that require a bit more experience to handle. Overall an excellent collection that is satisfying.

awesome

By hrothgar

the music is great, absolutly amazing. It didnt however come with a disk, then again it never said it did but just letting any future customers know it doesnt come with a disk but the songs are easily found on youtube.

over all im really satisfied with the music and i highly recomend this product

it pretty much has 13 songs all of which are more than 2 pages front and back each, some longer it's over 60 pages of music, it looks kind of thin but theres more in it than you think. the titles and writing on the creators is in japanese but again you can just look up the final fantasy VII songs on youtube and name them all in english.
