Book Description

Sometimes, only the heart remembers...

He's in the fight of his life...

Suddenly back in Iraq, US Army Corporal Harley Mortimer searches for the men he left behind. He finds himself lost in a world where guilt never lets go and nothing seems real. Dead men talk and die over and over again. There is no peace or rest. Only war. Only despair. Only—didn't he survive this exact scenario once before?

And who the hell is Judy?

She is a force to be reckoned with...

Judy O'Brien's future is planned and perfect until the man she intends to marry goes missing. Mysteriously, Kelsey Stewart disappears the same day as Harley. He and she have a shared history, but do they love each other—that way? Worse, is he the murderer the FBI claims? Judy must come to grips with the man she thought she knew.

And all of his secrets...

Oh my Harley, I loved you in book 1 and have loved you in every single one since! So happy to read your book now!!

By Amazeballs Book Addicts

Oh Harley, how I have waited for you!!! I am a HUGE, HUGE, HUGE fan of Ms. Winters. She completely sold me in Alex and each and every book in this series is simply amazing. I have loved Harley from the beginning and have been very anxiously awaiting his book. Ms. Winters you did not disappoint. Poor Harley has suffered so much with PTSD and you really get an insight to what he is going through and not just that, but you really feel not just what he feels, but what his loved ones go through and feel as well. I truly felt that I was right there in the thick of things, going on every twist and turn, up and down with every single character. Ms. Winters has a way of writing that is unlike anyone I have ever read before. This whole series is amazing! I truly can't say enough about them. While they are a series and you see previous characters in each book, each book is so different from the previous. All the characters, main and secondary, are so real you will feel that you are right there with them. There is heartbreak, suspense, and love in each book without any book feeling like you have read it before. It's new and different in each book. Each character has their own story and each book will leave you just waiting for the next. It will grab you on page one and keep you

biting your nails until the very end. I for one have this author on my MUST READ list!! I highly recommend this book as well as all the rest! This is a 5+++ AMAZEBALLS stars for me!! Can't wait to read Connor's book next!!

Amazing Story of Harley and Judy

By Susan

We really see Ms. Winters skills as a writer and story teller in this Book 4 of the Snipers Series. Judy has followed Harley across country to be with him. She loves him dearly and accepts him for the wonderful man he is in spite of his many post war issues, better known as PTSD. I doubt any novel could describe the ravages of this disorder better than this story. When more trauma knocks Harley into a full blown episode with loss of memory; he goes into hiding from the "insurgents in Iraq". It is amazing how Alex immediately guesses this is what happened, and sends two of his best to find Harley and bring him back, with instructions to not argue and just kind of go-with-the-flow. What happens next is traumatic even for the reader.

Non-Stop Enthralling Drama!

By charlotte mccarthy

From beginning to end the story was continuing excitement. The intertwining stories of the characters as each of them were encountering harrowing situations made it difficult to take a break from reading. There were several emotional moments that touched my heart. As I read the other books in this series, I feel that I know the characters personally.

I recommend this book and others in this series to anyone, particularly those interested in heroes and how they never stop trying to keep the world safe.
