How can the book help

This book is a 100 percent guarantee that you will get over any person.

All you have to do is read the book well and apply what's written in it exactly. Again I am proudly repeating it, it's a 100% guarantee that you will recover, not 99 nor 98 or 97.

This book is by far the most powerful guide in the world to getting over someone. The book is not just different than other books that tackle the same subject but it's not even comparable to them.

The book will make the worst breakup ever become a simple state that you can recover from in few weeks if not days. Personally I get over the worst breakup ever in three days but this is not how I used to be, I used to feel broken and to stay depressed for months until I grasped extensive knowledge about the psychology of love.

This book intends to transfer to you this knowledge that can make you forget about anyone in few days.

How effective is it?

Even if you were so deeply in love, after reading the book and applying what is in it you will have no emotions towards that person you loved. If you feel that the person you love is your soul mate and that you simply can't get over him/her then after reading this book and applying what's written in it he/she will become just like a brother or a sister to you.

Moreover, breakups will never affect you the same way they used to affect you after reading this book.

Few days after applying what's written you will start to feel better, by the second week you will recover up to 50%, your mood will become more positive and you will start feeling better everyday. The only thing you have to do is to stick to what's written.

The other thing that makes this book different is that it's a 100% guarantee that you will recover unlike other books that just promise you to feel better. I have helped thousands of people to completely forget about the people they were in love with using the techniques in this book. Again I am repeating it strongly and clearly, it's a 100% guarantee that you will recover.

What's different about the book?

This book is not about intuitive tricks or logical ideas that can be easily guessed like "be strong", "stop thinking of her" or "focus on other things" but is rather one that is based on complex psychological principles simplified enough to be understood by all.

All of the techniques in this book are backed by psychology and scientific research. The techniques in the book are derived from Love psychology, Friendship psychology, Neuro-linguistic programming, subconscious mind programming, Behavioral psychology, Hypnosis, Physiology and scientific research.

The other thing that makes the book different is that it has no alternatives, browse the web, search for free tips, grab all the advice you can and as soon as you discover that they aren't working come back and buy it. There are no free alternatives to the information found in this book and that's why i am increasing its price every now and then. Bookmark this page and come back when you are tired of searching.

Why is the price a bit high?

What is the amount of money you think is worth paying to get over someone completely? What is the price of permanently forgetting about the suffering you have been living through?

The price of this book is not based on its number of papers but its based on its ability to completely heal your pain forever.

Warning

If you think that falling in love should involve suffering, pain, feeling bad or becoming depressed then don't proceed as the book will permanently change your reaction to breakups.

I am not responsible if you never felt bad whenever you broke up with someone or if you become indifferent when it comes to breaking up with someone. Don't worry, the book won't affect your ability to love and to be loved but it will just change your beliefs when it comes to breakups.

Lots of helpful and interesting insight. Easy read, but distractingly poorly edited.

By Matthew Warg

Radwan argues effectively that in order to avoid the hurt of a breakup, we should turn to introspection. Why am I finding it so hard to get over this person? Why do I fall in love so easily? What is it really that I am in need of that is causing me to invest so much of myself in my romantic relationships? He argues that understanding is the antidote, and I couldn't agree more.

Intimacy, Radwan says, is what we are looking for. We all need intimacy, and for those who cannot get enough of it from family and friends (this is not sexual intimacy), they are more prone to becoming attached to their partner or to becoming "addicted to love," moving quickly from relationship to relationship in order

to avoid dealing with the hurt of a breakup. He explains why people fall for the people they do, why people don't leave bad relationships, and why we have a hard time giving up hope for reunification.

Honestly, if he hired a decent editor, I feel like he could make a lot more money off of this book. It's not too hard to see past the numerous grammatical errors, as it is a quick read and is easy to follow, but along with the mediocre organization of content, it can certainly be a distraction. Other than that minor warning, I would recommend this book. Radwan provides some great tips and advice, such as the Block Method, used to prevent unwanted thoughts and memories of your ex from lingering in the forefront of your mind. If you are struggling with a breakup, this is the book for you. Just have some patience knowing that English is not his first language.

I've never read a "self-help" book in my life

By Anonymous

Read this book. I've never read a "self-help" book in my life, but at this point in my break-up, I was willing to try anything. After a month of crying every day, feeling sad (for lack of a better term), and going through what felt like excruciating pain, I was ready to try just about anything. Again, I have never read any kind of break-up, self-help book in my life, and it seemed silly to me to even try it because I've read a ton of articles about this exact subject, and they all seemed ridiculous or not insightful or helpful at all. I was at the point where I knew I was better off w/o him, I knew I would eventually be okay, I knew I would eventually find someone else, I know all of this.... SO WHY DOES THIS STILL HURT SO BADLY???? I bought the book. It works. Some of the things in the book are things I PROBABLY could have concluded on my own, but I honestly hadn't yet, and I probably wouldn't have until a year from now when I'm completely over my ex. That still made it worth it because this book was able to do in a few days what I've been trying to do in over a month, and probably wouldn't have been able to do for several more months (someone said that in a previous review as well). If your pain was anywhere near as intense as mine, and this review helps you buy this book, then I've done some good here. If nothing else, to me, it's even worth the 'hope' that it may alleviate what you're going through. Good luck.

Very Effective and Straight to the Point

By Ashraf Kamel

Short and to the point. Few pages with all the gems in them... Taught me how to gain back my life and fill the big space left after a breakup, and how to heal the pain and sorrow accompanying tough breakup. Also, getting over the memories and the feeling of missing the good times from a previous relation...
