Poetry - Why We Write It, and You Can, Too

By Glynn Young

"From the earliest of times," says L.L. Barkat, "people have used poetry as a way to remember, to heal, to hope, to love. Poetry's various methods are suited to produce a memorable, emotional experience of language and, indeed, of life itself, as a poem can sing its music and ideas into our very centers."

In "Inspired: 8 Ways To Write Poetry You Love," Barkat writes about poetry - what it is, why you should consider it, and why you should consider memorizing it. And why you should write it. In fact, she makes it rather easy to begin. She describes five kinds of poems (there are others) - the catalog poem, the sonnet, the resolution poem, the sestina and the villanelle - gives examples of each, and then provides writing prompts and links to more information and discussion.

Barkat goes on to suggest you tweet your poem to @tspoetry (the Twitter account for TweetSpeak Poetry) and post your poem on the TweetSpeak Facebook page.

She's the author of six books, including a poetry collection, "InsideOut: Poems." (And I have to say even her

non-fiction works read like poetry.)
