a wonderful book for job hunters

By Ffamran mied Bunansa

Getting interviewed for a job has always been an issue for job hunters, specially for new graduates. There are a bunch of factors that can make or break an interview. Knowing how to handle yourself and how to work around different interview scenarios can do wonders.

I am very impressed on the tips and insights on this book. They are quite helpful for those looking for a job and need help learning how to talk and present themselves in the best possible light to interviewers. The section where the author talked about the types of interviewers was quite helpful. Also indicated here are some responses to interview questions that a job hunter can use as reference.

Overall a great book and a very good reference for everybody.
