One perfect night of passion...

Emily Scarlet's husband left her for his secretary and died in a car accident—all on the same day. Now, six months later, Emily has emerged from her chrysalis of painful memories. And to prove she has what it takes to attract a man, she's determined to experience one perfect night of passion.

Feline shapeshifter, Saber Mitchell has a problem with his four boisterous younger brothers. They're out of control, causing trouble and dragging him into the mire. It's too late for him, but he hopes to get his brothers mated and settled, and the inaugural Middlemarch ball is the place to introduce them to marriageable women.

Unbridled sex is the last thing on Saber's mind, but one glimpse of the bubbly Emily Scarlet in her slinky red dress changes his mind. Sex with her is a necessity. They dance. They make love—passionate, intoxicating and satisfying.

One thing is clear—a single night isn't enough. Saber must have her for his mate, but Emily isn't so easy to convince...or trust.

This book was previously published as Scarlet Woman. It has been edited again and contains a bonus chapter.

Great Start to a New Series!

By Loves to Read (A Cozy Booknook)

I really enjoyed this book. It's set in the small town of Middlemarch where the men outnumber the women. The town council (made up of panther shifters) thought of having a "love train" bring women to their town and participate in a singles dance. The idea was that some of the young men would find a mate and settle down, thus not causing any more hijinks that would bring attention to them.

Saber is the the older brother to his four siblings causing the trouble so at the dance he doesn't expect to find a woman who makes his panther purr. Little does he know the woman, Emily has a lot of emotional baggage she has been trying to work through and only planned to attend the dance for a one night stand. Emily's deceased husband inflicted a lot of emotional and verbal abuse so she thinks she is done with men until she

meets Saber.

I really enjoyed the story idea, I thought it was a fresh way for a shifter to meet their mate. I instantly felt the spark between Saber and Emily and was rooting for their happily ever after. I also liked Saber's younger brother's, I can't wait to read their stories.

There was a pesky reporter that is nosing around because of "alleged" panther sightings and she is trying to get proof but other than that not much comes from her part in the story. Perhaps more will come of it in later installments of the series. I really want to know if she finds out the truth and exposes the shifters or something else happens with her.

I really enjoyed this book and look forward to reading more in this series.

I was provided a copy of this manuscript from the author in exchange for an honest review.

My Scarlet Woman

By Evampire

After emerging from her chrysalis of painful memories, Emily Scarlet sets out to prove she has what it takes to attract a man and experience one perfect night of passion in this captivating paranormal romance.

Saber Mitchell's brothers are out of control, so he hopes to get them mated and settled and the reader can't help but get caught up in the story as Saber's plan goes a little off course when he spots Emily. The chemistry is a hot bed of intoxicating passion and the sex scenes are scorching but this relationship has a problem, due to Emily's past and personal demons, she's determined to keep it at the sex only stage which causes a bit of emotional angst. These strong compelling characters captivate readers while the well written, fast paced and smooth flowing plot draws readers in.

Shelley Munro has created another sexy feline world with a small community setting that makes a perfect backdrop for these shifters and it has a bit of a fun and promising hook as Middlemarch has a shortage of women but they have come up with a way to change that and I can't wait for my next visit to Middlemarch to find out who meets their mate next.

Smoking hot Kitty!

By Gma Teri

I absolutely loved this book! It's the beginning book of the Middlemarch book series by Shelley Munro. Yes, it's been redone and spruced up, it even has a new chapter. Plus, I think she's added more than that to it, so now it's even better! I loved the fact of the Love Train bringing females to a town where there are too many males. Saber is a black panther and his brothers are out of control. So he and the other members of the Feline Shifter Council decide to have a dance bringing females from out of town so the younger males can find mates and settle down. Only Sabers in for a surprise, a surprise by the name of Jo (or should I say Emily). Ms. Munro writes with a sense of humor, you'll find your mouth twitching or out and out smiling while reading her books. You just can't help it! Recommend to all you shifter lovers out there! If you like smoking hot shifters, steamy love scenes, with a good plot written with a sense of humor you'll love her writing too. Not sure how long she'll have it on KU, so don't wait too long to read and decide if you want to buy it for your personal collection. It's a great series!
