Amazing

By Melekali

This is a beautifully written book which could be used in an RCIA program or even in an Adult Ed program for most American Catholics. While I noticed a couple minor errors or questionable statements, the core of the material is solid. It wonderfully follows the catechism giving the reader a chance to read the catechism information along side with, before or after reading Lucas' very succinct and well written explanations. His introduction to much of the material indicates he has mastered the subjects he is writing about and he knows them well. I would highly recommend this book to all who want to learn about the Catholic Church, particularly those in RCIA or those Catholics who never received a good education in their faith for any reason.
