Great book

By Brooklyn Roundtree

This book is really awesome. I wish it could've been longer but it was the perfect length for the actual story itself. I loved it. It is a great book for teens or even preteens looking for something to read. You should definitely give it a chance.

Took 15 Mins To Read

By Book Nerd

This was a cute quick read and I enjoyed it however even though this is a short story there wasn't enough foundation laid or enough time spent together for Savannah and Boston to fall in love. Now had it been written that their prior interactions went beyond a class project and they actually had real conversations or spent time together, then the love aspect would of been believable. So this book should of been written with them really liking each other but loving each other? Yeah that was a stretch. But with the unbelievability of their love aside everything else about this book was good and I enjoyed reading it. Savannah being a peeping Tom was a cute aspect to write a book about and Boston saving the day was really nice of him. I could relate to Savannah because my sister was like that, she was always looking through or in people's things and she knew everyone's business even before they did sometimes lol. Yet even though she knew all this info like Savannah she kept it to herself and didn't tell anyone unless she felt that telling would protect someone. But anywho this book was worth the \$0.99 asking price and I finished it in about fifteen minutes so in my overall opinion I say get this book.

What is done in the darkness will be brought to light.

By Diana A.

Though this story is about forgiveness, there are other themes here too. More than forgiveness, I think the major lesson in this book was the harm that jealousy and anger can do, along with the harm that not speaking the truth can do. It also shows that even when you think no one is looking, someone may actually see what you are doing, This is a great book for preteens and teens. For the reviewers that feel that Savannah and Boston "fell in love" too quick, all I can say is listen closer to your teens- there is no more getting to know someone before declarations of love are made. Today's teens are more like "oh, you're paying attention to me? Yes, you're cute, I love you." This is a quick read, not minutes wise, but I think it is a good length for most teens. I believe it is very up to date and relevant to today's teen. I was given a copy of this book for my honest review.
