Where does honey come from? The Cat in the Hat knows that! It comes from bees, and what better way to learn about honey making than to visit inside a hive and see firsthand how it's done? In this rhymed easy reader based on an episode from the new PBS Kids television show *The Cat in the Hat Knows a Lot About That!*, the Cat, Sally and Nick, and Things One and Two shrink to bee size and learn how bees communicate via dance, collect nectar and spit it into combs, turn it into honey, and seal the combs with wax.

This is a sweet, funny Step into Reading book that kids will gobble up (without realizing they are ingesting an important natural-history lesson!).

Great story for little ones!

By Vanya's Mom

We got this book as a freebie at National Book Fair, and at first I thought our 19-month-old wouldn't have any use for it for years. It's become her favorite, though, thanks to the rhymes and colors, the wonderful rhythmical language, and the fun story. She loves to get up and act out the bees' dance, and point to each character in the story. We're ordering copies for her cousins for Christmas, along with a donation for bee hives to an international relief organization - and will be picking up a few more books in this series for our daughter. Best of all: unlike most of her baby books, Mom and Dad don't get tired of reading this over... and over... and over...

Great introductory book on bees

By Lori R.

Great children's book to introduce bees and how they make honey. Mostly for younger children, it can really teach anyone about the roles the different bees have in the hive and how the bees dance to let other bees know where to find honey.

Author Rabe is an excellent writer of the Seussian type children's books. These, including this title, are excellent for young children and help to establish a bond between adult and child. This book is recommended and Rabe can be considered a very creative author.
