10 of 12 people found the following review helpful.

very thin, pretty simple

By Paul K. Visscher

This contains the kind of riddles that go: a man is found on a wooden floor, dead, with no marks on him except the number 18 written on his right hand. The game is to pose the riddle to people who ask you yes/no questions to try to figure what happened.

This book is OK, but the riddles are a bit simple (perhaps appropriate for 10 year olds), and there are not a lot of them, only 1 per page for its 20 pages.

3 of 3 people found the following review helpful.

Love this/Kids love it

By simplifymylife

Keep this when you find your lesson went quicker than expected; you have a few minutes left but not enough time to get started on something new - perfect to maintain attention for all ages; I have used this middle school through adult. Also works great when you are waiting to dismiss students and cannot start something new.

3 of 3 people found the following review helpful.

Fun and clever but a bit pricey.

By justabitoutside

My daughter asked for this book after she was introduced to the "Stories with Holes" series at school. The stories are clever and fun and we have enjoyed them, but the book felt a bit short on content for the money. We probably won't purchase any additional volumes unless the price is reduced.
