I would recommend it to anyone interested in country music and/or this ...

I thought the book was written clearly without starry eyed embellishment. The story line starts with childhood and early school experiences which the author used to explain some of the reasons T. S. is driven. Without the cooperative parents and that drive we probably would never have heard of Taylor Swift. The book

increased my esteem for the achievements of this young lady. I would recommend it to anyone interested in country music and/or this musician.

Great Read!

By Karen Gros

I really enjoyed reading this sampler of the Taylor Swift "The Whole Story" book. I also would like to state that I was very pleased with the length of the sampler. It was much longer than I expected and contained multiple chapters of the book. I found this sampler to be very enjoyable as it provided an inside look to Taylor's life growing up and leading up to her music career. I think most take it for granted that she had it made growing up and this book puts all those assumptions to rest. Yes, her parents were well off, but it didn't change the fact that she had to make her own way in the music business and also deal with peer pressure.

Great read and I look forward to completing the book soon!
