WHEN WINE TASTES BEST 2017: A BIODYNAMIC CALENDAR FOR WINE DRINKERS (WHEN WINE TASTES BEST: A BIODYNAMIC CALENDAR FOR WINE DRINKERS) BY M PDF

When you buy a bottle of wine to enjoy at home, wouldn't you like to know when it's going to be at its best? Based on the unmatched Maria Thun Biodynamic Calendar, this handy little pocket guide tells you which days are optimum wine-drinking days, and which days to avoid if you want to get the most out of your glass. At least two major supermarket chains only do their wine tastings on the best days as indicated by this calendar! Includes a bonus month, December 2016, to cover the Christmas season.

You don't have to be a true believer....

By Chambolle

If you spend any time around winemakers in France these days you will hear about biodynamic farming. You will also hear about fruit, flower, root and leaf days and what you should and should not do in the cellar and in the vineyard on which days. The biodynamists claim that wines show at their best on fruit and flower days, and not so well on root and leaf days.

So what does it all mean? This little book (all of 48 pages, in 4 inch by 6 inch format) will give you a quick explanation of the biodynamic calendar and month by month charts showing the fruit, flower, leaf and root days from December 1, 2010 to the end of December 2011. Does the position of the moon, planets and constellations in the sky really affect the wine you bring up from your cellar (or grab off a retail shelf) for dinner this evening? Difficult to know for certain, but with this calendar in hand, you can begin to experiment for yourself. And you might just hold off on opening that bottle of '61 Latour or '78 La Tache until the next fruit day rolls around.

It will also make for some interesting conversation the next time you gather with friends to share a few bottles and a long meal -- particularly if, as happened to me recently, your extended evening of food and wine straddles a favorable 'fruit' day and, by the time for the cheese and Vosne Romanee rolls around, segues into a not so wine friendly 'root' day. Now what? Heck, you aren't going to forego the wine because the biodynamic calendar says the witching hour has arrived, but you and your dining companions will definitely have something to wonder and talk about!

Worth the giggles.

By Pablo del Lago

BD is an acquired taste. While not bitter, it is tough to swallow while laughing this much. John Cleese would enjoy this book.
